

Joint "bio-based composites" stand at COMPOSITES EUROPE 2015

COMPOSITES EUROPE – Facts & Figures In cooperation with nova-Institute

The unique opportunity to efficiently present your bio-based solutions!

Date

22 – 24 September 2015

Location

- **Messe Stuttgart, Hall 3:**
Raw materials, further processing, refiners
- **Messe Stuttgart, Hall 5:**
Fibres, fibre products, intermediate and semifinished products, **BIO-BASED COMPOSITES**
- **Messe Stuttgart, Hall 7:**
Machines, equipment, consumable materials

Held

Annually (since 2006),
alternating between Düsseldorf and Stuttgart

Exhibitors

450 exhibitors expected from around 30 countries

Topics

- Wood-Plastic Composites (WPC)
- Natural Fibre Composites (NFC)
- Bio-based thermoplastics and thermosets for composites
- Bio-based plastics

Visitors

11,000 visitors expected from roughly 60 countries, of which over 40 % international visitors from e.g. the following sectors:

- Automotive
- Aerospace
- Mechanical engineering
- Building and Construction
- Maritime/Shipbuilding
- Sports, Leisure
- Wind Energy
- Transport (railway, buses, mass transport)

Visions become reality.

Joint "bio-based composites" stand

This year COMPOSITES EUROPE will be joining forces again with nova-Institut GmbH to arrange a joint stand devoted to "bio-based composites".

What are „bio-based composites“?

- All composite solutions with a reinforcement by natural, wood or cellulose fibres
- Bio-based thermoplastics and thermosets as matrix for glass and carbon fibres
- Fully bio-based composites with wood and natural fibres
- Bio-based plastics

Play a pioneering role as "bio-based composites" are being singled out and presented separately. The joint stand is located in hall 5.

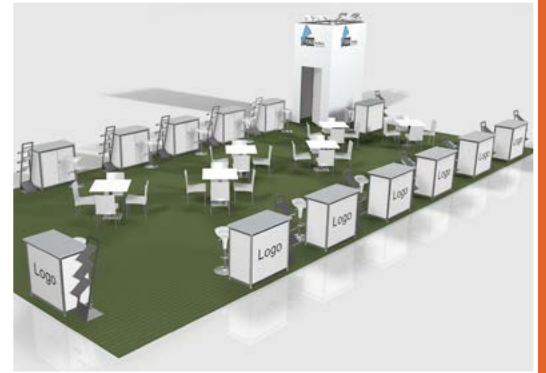

Participation

All-in-one package

- Stand rent, stand construction
- Registration fee, AUMA fee
- Extra lump sum, marketing fee
- Insurance
- Stand décor
- Power connection, stand cleaning
- Self-service for soft drinks & coffee

Prices 2015:
