CKade BV

CKade empowers industries and governments in the bioeconomy through professional consultancy services based on a unique combination of expertise in biotechnology, biomass value chains, business management and government policy.

Our Services

1. BIOTECHNOLOGY AND INNOVATION

CKade's in depth technical and regulatory knowledge supports the design and implementation of sound biotechnology policies and product development strategies.

2. SUSTAINABLE BIOMASS

CKade provides comprehensive consulting services on sustainability strategies to eliminate business risks and optimize sustainability performance.

3. ASIAN BIOMASS MARKETS

CKade is active in Southeast Asia where it has developed distinctive market insights and networks to provide market intelligence, matchmaking and local project management.

4. KNOWLEDGEABLE PROJECT MANAGEMENT

CKade applies its multidisciplinary expertise to successfully connect industries, academia and government policy within the bioeconomy.

About

CKade BV was founded in 2008 and has its home base in Rotterdam (The Netherlands), the biomass main port for Europe. Our customers include industrial and green biotechnology companies, R&D organizations, food and feed sector, biomass supply chain and agri-business operators, trading companies, energy and utility companies and government organizations.
