

NOOSA S.A.

NOOSA

Created in 2019 in Brussels, Belgium, NOOSA is a biobased textile fiber that is endlessly recyclable thanks to its patented recycling technology.

We offer a solution to the current problematic we see with textile waste, by providing a circular and fully recyclable fiber that can be implemented in a wide range of textile applications.

Our mission is to offer a tangible solution to the textile industry, helping it become circular by providing a biobased alternative, packed with outstanding intrinsic properties such as increased breathability, low odor retention, low flammable, bacteriostatic and UV stable.
